Wash Two Loads At The Same Time

Time Saving

The comparison graphic shows two scenarios. On the left, labeled 'LG Conventional', a single drum is shown with one load of laundry, accompanied by a red alarm clock icon. Below it, the text reads 'Wash one load at a time'. On the right, labeled 'LG TWIN Wash', two drums are shown stacked vertically, each with a load of laundry, accompanied by a red alarm clock icon. Below it, the text reads 'Wash two loads at once'.

### Smart Show Window

Window Shopping Not Allowed  
The Smart Show Window uses interactive displays to create a dynamic window display. It features a large screen, a touch screen, and a camera. The display is designed to be interactive and engaging.

- Screen Mode
- Touch Mode
- Camera Mode

Screen Mode: The screen displays the product information and images. Touch Mode: The touch screen allows customers to interact with the display. Camera Mode: The camera captures the customer's face and provides a virtual try-on experience.

## INNERVIEW CAMERA & FOOD REMINDER

You can check what's in your refrigerator at any time or anywhere just using your phone. Inview cameras clearly show the shelves inside, so you can quickly take a look when you are out shopping!

The Food Reminder helps to reduce waste and ensures that you enjoy food at its best. Enter expiry dates of items as you store them in the refrigerator and it will keep you up to date on how many days are left and inform you when the expiration date is close.
