SPEAKERS: Sarah Maneri and Bill Anderson
Vizrt

SUBJECT: Multiformat realtime 3D character generation

Vizrt will be presenting the Viz/Trio broadcast graphics system. This system replaces traditional character generators and still stores in a broadcast news environment with one centralized user interface and a modular output system capable of 2D & 3D animations without the need for pre-rendered video clips. They will also be showing Viz/Artist, the design tool incorporated into Viz/Trio. Viz/Artist is capable of real-time rendering of complex full screen animations and animated objects normally created in AfterEffects, 3D Studio, and other similar programs.

Sarah Maneri, Product Specialist, has just begun her career at Vizrt, coming from ESPN where she was the lead graphic designer and project manager during the transition to Vizrt in 2004.

Gerard (Jerry)
Matthews
GTN, Inc.

Bill Anderson is Central Region Sales Manager, joining Vizrt in January of 2005. Prior to that, his 30 year career in radio & television production, management, and sales included most recently positions as Broadcast Product Specialist & Regional Sales Manager with Pinnacle Systems for eight years.
