

# Detroit Section October 2020 Meeting Notice

On October 1, 2020 By Frank

SOCIETY OF MOTION PICTURE AND TELEVISION ENGINEERS

Detroit Section Meeting Notice

October 2020

Date: **Tuesday, October 13, 2020**

Time: **7:00 PM**

Topic: **NDI (Network Device Interface)**

Speakers: **Will Waters**, Head of Product Management, NewTek

Location: **Online – See below to register**

Network Device Interface (NDI) is a royalty-free software standard developed by NewTek to enable video-compatible products to communicate, deliver, and receive high-definition video over a computer network in a high-quality, low-latency manner that is frame-accurate and suitable for switching in a live production environment. Will Waters of NewTek will present a short history of the development of the NDI standard, where it currently lives in the commercial broadcast ecosystem, and where NewTek sees it going forward. We hope to offer a wide view of the dream and practical realities of NDI. (Due to prior commitments, Grant Guston of AVI Systems will be unable to join us.)

The meeting will be held online. SMPTE members assigned to the Detroit Section receive notices to their e-mail address in their membership profile. If you are not a member of SMPTE or have an additional e-mail address, please join our groups.io group to receive meeting notices and other information from the Detroit Section. If you did not receive an email with the connection details, please complete the webform below.

**Guests and non-members welcome – No admission charge**

Please post on your company bulletin board or share with your colleagues electronically.
