Topic: Large Format Acquisition in Live production

Date: Tuesday, June 14, 2022

Time: 7:00 PM

Location: Zoom (Virtual Meeting)

Arranged By: Stosh Durbacz, Tony Meerakker, Sylvia Fantin, Craig Jasman

Sponsor:

This month's meeting will be the last one for this 2021/2022 session. We will have the summer off and will come back in full force in September.

The topic for this month will be on 'Large Format Acquisition in Live production'. Everything around us seems to get larger. Bigger consumer TVs, larger phones, larger forms of storage devices and now larger camera sensors. And like other technologies our industry somehow has control over where these new products find themselves. Large sensor in live productions. Bigger sensors mean larger real estate which will give you larger pixels, more color accuracy, less noise, more resolution and so on. Is it all just about the math? There must be more!!

We are pleased to welcome as presenters' industry leaders & experts that will set us all straight. We have Arri, FUJIFILM and Sony that will be presenting.

François Gauthier, MBA, Technical Sales Representative, Camera, ARRI Canada Limited.

Stosh Durbacz, National Sales Manager, FUJIFILM North America Corporation, Optical Devices Division

Hugo Gaggioni, Sony
